EDUCATION

University of California, San Diego

La Jolla, CA

Bachelor of Science in Data Science, Minor in Cognitive Science

Sep. 2024 – Jun. 2028

- Data Structures, Design, Analysis of Algorithms, Computer Organization, Systems Programming, Data Science in Practice, Machine Learning Algorithms

GPA: 3.8

EXPERIENCE

DSC 80: Practice and Application of Data Science Tutor

Aug 2026-Present

Hahcioğlu Data Science Institute, UC San Diego

La Jolla, CA

- Mentored students across applied data science coursework through technical office hours and individualized guidance on statistical and programming concepts.
- Graded assignments and projects and developed exam questions assessing students' programming, statistical reasoning, and data analysis skills.

Professional Events Director

May 2025 – Present

Data Science Student Society, UC San Diego

La Jolla, CA

- Lead the planning and execution of **4+ professional development events per quarter**, including industry panels, faculty mixers, workshops, and networking events.
- Coordinate with industry professionals, faculty, and student organizations while mentoring committee members through independent event planning and execution.

Product Manager

Nov. 2024 – Present

Triton Software Engineering

La Jolla, CA

- Lead **client-facing project management**, translating stakeholder needs into technical requirements, project priorities, and actionable deliverables for development teams.
- Coordinate cross-functional developers and designers, facilitating communication, managing scope and timelines, and aligning technical decisions with client goals.

Resident Assistant

Aug. 2025 – Jun. 2026

Eighth College, UC San Diego

La Jolla, CA

- Supported a community of **50+ undergraduate students** through mentorship, conflict resolution, crisis response, and connections to campus resources.
- Designed and facilitated educational and community-building programs to foster an inclusive and engaged residential environment.

PROJECTS

League of Legends 15-Minute Statistical Analysis | *Python / Riot API* | GitHub

- Analyzed 18,472 professional LoL matches, performing **data cleaning, feature engineering, and exploratory analysis** on early-game metrics.
- Built **predictive models** (Decision Tree, Random Forest) to forecast match outcomes from 15-minute statistics, achieving **74% accuracy** and conducting **fairness analysis** across league tiers.

TECHNICAL SKILLS

Languages: Java, Python, HTML/CSS, R, SQL

Tools: DarkTrace, Git, VSCode, MongoDB, React, Node, Express, Tableau, PowerBI, Excel, Google Sheets, REST APIs, JSON

Libraries: Pandas, NumPy, Matplotlib, SeaBorn, Scikit-learn, Requests, PyTorch
